To Whom It May Concern,

This is to certify that **Mohammad Ramzy Yousef Muhaisen** has successfully completed a three-month internship with **Sadeim Inc** as a **Laravel Back-End Developer**, from **February 1, 2025, to May 1, 2025**.

About the Company:
Sadeim Inc is a technology company specializing in software development, website design and management, digital marketing, cloud solutions, and Software as a Service (SaaS) products. The company is headquartered in Chicago, Illinois, USA, and serves clients globally. Our company operates remotely, allowing interns and employees to work online without needing to be physically present at our headquarters.

Internship Details:
During his internship, Mohammad Ramzy Yousef Muhaisen was part of the software development team, focusing primarily on Laravel-based back-end systems and web application development.

Responsibilities and Tasks:
Throughout his internship, Mohammad contributed to the following tasks:

- Developing and maintaining back-end logic and APIs using Laravel framework.

- Collaborating with the front-end and UI/UX teams to ensure seamless system integration.

- Working with databases, migrations, and RESTful APIs.

- Writing clean, reusable, and efficient PHP code following best practices.

- Testing, debugging, and improving existing systems to enhance performance.

- Participating in weekly development meetings and version control workflows (Git).

Performance and Evaluation:
During his internship period, Mohammad demonstrated strong technical skills, professionalism, and a proactive attitude toward problem-solving. He consistently met deadlines, collaborated effectively with team members, and showed great enthusiasm for learning and applying new technologies.
